

## Spring Break Camp

The Carrie Brazer Center offers a unique camp program for children with autism and other developmental delays. Our specialized curriculum incorporates literacy skills, music and art therapy, physical fitness and an appreciation and understanding of Florida's natural environment, for a community-based marine learning experience. We take the children to the zoo, museums, parks and more 3x weekly.

## Staff

Our teaching staff will work together to develop individual academic goals and behavioral goals and objectives for each child during the camp week. Our program enriches the lives of autistic children by introducing a significant reading/literacy component based on nature, with hands-on demonstrations and explorations.

## Costs for Camp-March 23-27

The Cost is \$450 for the 5 days from 9am to 4pm daily for a ratio of 5 children to one teacher. If your child should need more support we have ratios of 1:1 available. Call 305-271-8790 today!

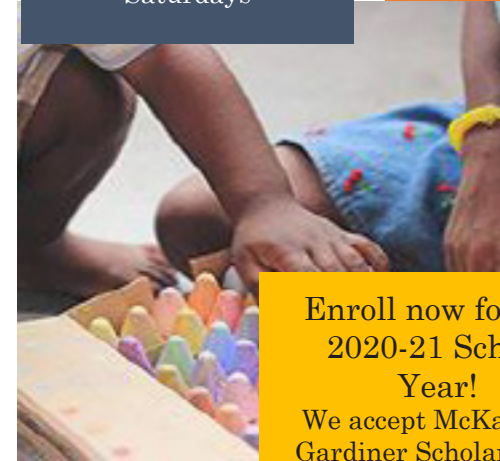

## The Carrie Brazer Center for Autism

**We are a "Positive Discipline School," one of the only in Florida for children on the Autism Spectrum. Positive Discipline teaches children and parents to be encouraging to each other and themselves. Every relationship is nurturing and deeply respectful. The environment is inviting and teaches everyone to be responsible, respectful and resourceful members of their school and family.**
